

Quality Statement

Solvent

Duty Free Terps (DFT) does not perform solvent-based extraction in the production of any of its products. The hemp essential oil base is produced in-house via steam distillation as the sole extraction medium. No organic solvents are used or introduced at any stage of our manufacturing process. Additional natural flavor ingredients are sourced from qualified third-party suppliers and are received as finished materials.

This statement is provided without the intention of preempting or superseding any regulatory requirements concerning the utilization and incorporation of DFT into downstream finished products. We maintain our unwavering commitment to upholding safety standards and ensuring compliance with relevant regulations.
